

Skills

- RAG, LangChain, LangGraph
- Vector Embedding, Chunking, Vector Databases
- Data Analysis, Data Validation, Data Quality Checks
- Python (Pandas, NumPy, Streamlit)
- SQL (SSMS, PostgreSQL)
- Azure (DataBricks, Fabric, Warehouse), MS Power BI
- ML, DL, GenAI, LLM's, Copilot, ChatGPT
- Prompt Engineering
- Basic FastAPI
- BRD, HLD, MoM Document

Professional Experience

DELPHI CONSULTING MIDDLE EAST – Dubai, UAE

May 2025 – Nov 2025

Data Functional Associate and Product Ownership (6 Month Remote Internship)

Projects:

- **DP World Genie Chatbot (GenAI Chatbot)**
 - Gathered and documented requirements for an **LLM-powered Text-to-SQL chatbot**.
 - Worked with stakeholders to define **RAG workflows**, knowledge retrieval requirements, and conversation flows.
 - Collaborated with developers on prompt design, **chunking strategy**, **LangChain-based** workflow requirements, and chatbot testing.
 - Validated AI-generated responses, **SQL query outputs**, user intents, and conversation accuracy during UAT.
 - Prepared BRD, user stories, and functional documentation for GenAI features and **enterprise chatbot** integrations.
- **M42 RCM Data Migration (Databricks → Microsoft Fabric)**
 - Worked on a **Revenue Cycle Management (RCM)** data migration project for a **healthcare client (M42)**.
 - Involved in **data migration and transformation** from **Databricks** to **Microsoft Fabric** ensuring high accuracy and reliability.
 - Performed **data quality checks** such as **completeness, accuracy, validation, and consistency** to ensure error-free data flow.
 - Collaborated with data engineers and business teams to reconcile discrepancies and maintain data integrity across systems.
 - Contributed to the **Globis RCM Migration**, ensuring seamless transition, validating business rules, and performing post-migration checks.

Tools & Technologies:

Microsoft Fabric, Databricks, Power BI, Excel, SQL, Azure, MS Teams, SharePoint

Personal Projects

AI-Powered PDF Question Answering (RAG) Chatbot – [Project Link](#)

April 2026

- Developed a **RAG chatbot** using **Python, LangChain, Google Gemini, and Streamlit** for PDF question answering.
- Implemented semantic search with **HuggingFace BAAI/bge-small-en-v1.5 embeddings** and vector storage for relevant context retrieval.
- Integrated **Google Gemini LLM** with prompt engineering to generate accurate, context-aware responses, minimizing hallucinations.
- Deployed the application on **Streamlit Community Cloud**, enabling users to upload PDFs and interact with documents through a conversational interface.

Education

BACHELOR OF TECHNOLOGY – Harcourt Butler Technical University – Kanpur, UP

June 2025

BTech – Chemical Technology Oil Technology

BACHELOR OF SCIENCE – Indian Institute of Technology Madras – Chennai, TN (Online)

April 2027

BS – Data Science and Applications

Certifications

- AI for Everyone – Coursera (Andrew Ng) - [Link](#)
- Product Management A-Z – Udemy - [Link](#)
